**Future World Financial to Launch Top-end Business Centre
And Blockchain Technology Experience Centre in Due Course**

25 January 2017, Hong Kong -- **Future World Financial Holdings Limited (00572.HK)** announces the imminent launch of the Group's first top-end business centre and an experience centre for encrypted digital asset blockchain technology in Hong Kong. The 14,000-square-foot centre is located in Kwun Tong and is scheduled to be completed in two months.

Top-end Business Centre

The business centre provides premier serviced office, and conference and business activities venue for corporate clients, complemented with customized service and advanced equipment. It has ample space for the setting up of multi-media activities/training rooms, conference rooms, showrooms, independent offices and VIP rooms. Its trendy design adds brightness to the lofty space. The business centre is equipped with the latest IT devices, communications system and AV conferencing equipment, and fitted with furniture systems. Its professional and friendly customer services team will ensure the most flexible solution for corporate clients looking for venue to host press conferences, seminars, product launches, training and shareholders' meetings.

The Group's Executive Director and Chief Executive Officer Mr. Steven Liu said: "The new business centre has a multi-media activity room that accommodates 400 persons. Apart from being spacious and comfortable, the room is also designed with acoustic features with professional sound insulation installations to ensure excellent sound effects. A dedicated lift is available for direct access to the room."

Encrypted Digital Asset Blockchain Technology Experience Centre

"Blockchain technology is under active development in the western world, as we witness the traditional financial sector being negatively impacted by the emergence of Internet finance and FinTech. In fact, blockchain technology is not only applied in the financial sector. The new experience centre will help showcase our encrypted digital asset blockchain technology. Visitors will get an understanding of its applications and benefits to merchants and the general public. This will help promote our further development in this area." added Mr. Liu.
